MEMORANDUM FOR THE RECORD

SUBJECT: Liaison with State

On 11 November 1983 Roger Benson from CDC at State called and left the message that State is putting out a report on the Lansdale matter and they want to use my name in association with publishing the report and in making it public. Benson is on 632 9291.

I called CDC on 14 November 1983. Benson was not in so I spoke with Tom Ainsworth, Chief of CDC/MR. He said that he would look into the matter and call me back. I told Tom that there should be NO public acknowledgement of my name.

Later, Ainsworth informed me that he had brought the matter up with Benson and the latter stated that the issue had been settled, no names had been used and it was now "water over the dam".
